

# HOME CINEMA INTERIORS

BESPOKE HOME RENOVATIONS

## About us

Home Cinema Interiors was founded by Joshua Jones in 2017. With more than 12 years of experience in the audio-visual industry, Josh has worked with some of the South of England's most respected AV companies.

His career has taken him across Europe, delivering high-quality AV installations for global brands including eBay, PayPal, and Jaguar Land Rover—often in a lead engineering role.

Josh's passion lies at the core of Home Cinema Interiors. His meticulous attention to detail, pursuit of perfection, and uncompromising standards have shaped the ethos of the entire team.

At Home Cinema Interiors, we are dedicated to delivering an exceptional customer experience—built on honest, transparent, and dependable communication from the very first enquiry through to the final installation. Our team takes pride in providing a seamless journey and results that exceed expectations.

We know that today's fast-paced world of technology can feel overwhelming, especially with all the technical terms and jargon. That's why we make it a priority to communicate in clear, straightforward language. Our goal is to ensure every customer feels informed, confident, and fully equipped to make the right decisions for their installation.

# Home Cinema

As our name suggests, Home Cinema Interiors is passionate about creating exceptional home cinema experiences. With the growing popularity of personal cinemas, more people are discovering the joy and freedom of enjoying their favourite films and shows on the big screen in the comfort of their own home. Whether you're looking for a projector and screen or a complete home cinema installation, we take pride in delivering expert advice, high-quality products, and professional workmanship to bring your vision to life.

Visit our Basingstoke Showroom to see our Hybrid Lounge/Cinema Room. This multi-functional room changes from a Traditionally decorated lounge to a Cinema Room with wonderful surround sound and incredible screen image.

# Media Walls

A Media Wall is a custom-built feature designed to seamlessly house your audio, video, gaming, and other media equipment. Crafted with your home's interior design in mind, it combines functionality with style to create a sleek, modern focal point for your living space.

In many homes, Media or Entertainment Walls have become a key living room feature—anchoring the space and creating a striking focal point. They now rival the traditional fireplace in popularity, yet there's no need to choose between the two. Integrated electric fireplaces pair beautifully with media walls, adding warmth and ambiance without compromising on style.

Every Media Wall is completely bespoke, designed and built around each customer's individual needs and preferences.

When crafted to complement the home's architecture and décor, they add character, style, and a sense of cohesion to the space. A well-designed media wall not only reduces clutter but also becomes a standout interior feature to be proud of.

# Chimney Breast Media Walls

A Chimney Breast Media Wall installation includes a complete design and build service. This covers full drawings, all materials, construction, plastering, electrics, and LED backlighting for behind the screen. We also take care of waste removal, supply brackets for both the TV and soundbar, provide all necessary cables and connectors, and finish the installation with matching skirting, coving, and painting and decorating. This style of Media Wall starts from £4,400.

The purchase of a fireplace, sourced from one of our trusted suppliers, is priced separately and will vary depending on the model you choose. We receive a trade discount on all fires and are pleased to pass a saving on to our customers.

# Shelving & Storage Media Walls

A Shelving & Storage Media Wall includes everything offered in our Chimney Breast design, with the added feature of integrated downlights within the shelving. The additional width of these builds allows for bespoke shelving, cupboards, and other stylish design elements.

As with the Chimney Breast option, the fireplace purchase is priced separately.

Shelving & Storage Media Walls start from £5,800.

# Storage

Storage is essential in many homes, keeping everyday essentials organised and accessible. At Home Cinema Interiors, we take pride in integrating practical storage into our Media Walls, combining functionality with a stylish, cohesive design.

Our storage cupboards are available in a wide range of colours and finishes, with options including handles, push-to-open mechanisms, and flat or shaker-style doors. We can also colour-match cupboards to your walls for a seamless, bespoke look.

Discreet storage within Media Walls is a clever way to make the most of your living room space. By incorporating hidden compartments behind decorative panels or feature doors, these storage solutions keep everyday items neatly out of sight while maintaining a sleek, uninterrupted design. This approach not only reduces clutter but also enhances the overall aesthetic of your Media Wall, creating a stylish and functional focal point in your home.

Our cupboard carcasses come with a 25-year guarantee, while the cupboard doors are covered by a 5-year guarantee, giving you complete confidence in the quality and durability of your Media Wall storage.

Seamless, discreet built-in storage cupboards keep all your living room essentials close at hand while remaining elegantly out of sight, maintaining a clean and uncluttered space.

If space is limited, we can incorporate storage into Chimney Breast Media Walls, seamlessly blending style and functionality. Designing bespoke Media Walls is our specialty, and we take pride in creating solutions tailored to each home.

# Bespoke Media Walls

Every one of our Media Walls is completely bespoke. In fact, this section could be more accurately described as 'Unique Media Walls' - designs that don't necessarily fit into the Chimney Breast or Shelving & Storage categories, but are crafted to perfectly suit your home and lifestyle.

If you have an unusual space, specific room requirements, or a unique idea, we'd love to hear from you. Our team enjoys turning creative concepts into beautifully crafted, bespoke Media Walls.

# AV & Cable Management

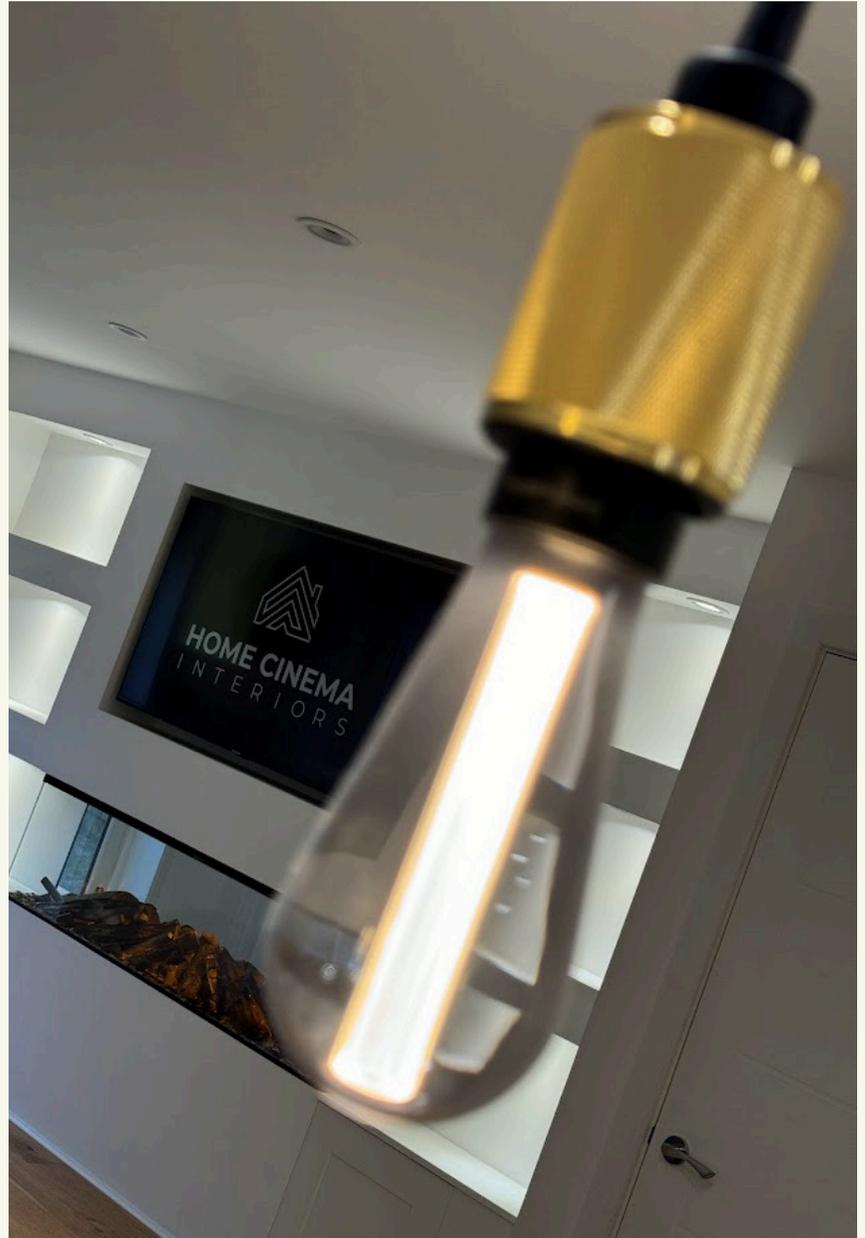

While it may not be the most glamorous aspect of a Media Wall, careful planning for cables, sockets, and AV equipment is essential. The placement of these elements is a common question from our clients and a key part of every Media Wall design we create.

# Lighting

Lighting plays a crucial role in all our renovations. From luxury fittings and LED strips to smart lighting systems and downlights, we ensure every Media Wall is not only functional but also beautifully illuminated.

The Home Cinema Interiors team are qualified electricians with extensive experience in all aspects of lighting, including cinema rooms, Media Walls, feature lighting, whole-room downlighting, and more. Their expertise ensures every installation is both safe and stunning.

Smart lighting offers a modern and convenient way to illuminate your home. Smart LED bulbs contain built-in software that connects to an app, smart home assistant, or other smart devices, allowing you to automate your lights, control them remotely, or operate them using voice commands.

ZUMA

Sound & Light. Reinvented.

Fires

We install a wide range of electric fireplaces from some of the industry's leading manufacturers. The choice of fireplace is entirely yours, and we are happy to share our expertise and advice to help you make the perfect selection for your home.

The logo for British Fires features the words "BRITISH FIRES" in a bold, black, sans-serif font. Above the word "FIRES" is a stylized outline of a flame or fire shape.

BRITISH  
FIRES

The word "Deluxe" is written in a black, elegant, cursive script font.

*Deluxe*

The logo for Solus features the word "SOLUS" in a large, bold, black, sans-serif font. The letter "O" is replaced by a circular graphic composed of multiple concentric, overlapping lines in a rainbow color palette (red, orange, yellow, green, blue, purple).

SOLUS

The logo for Solution Fires features the word "solution" in a black, lowercase, sans-serif font. A stylized lightning bolt graphic, composed of two overlapping triangles (one yellow and one blue), is positioned behind the letter "o". Below "solution" is the word "fires" in a smaller, black, lowercase, sans-serif font.

solution  
fires

A fireplace is not a required feature of a Media Wall, but many of our customers choose to include one for its stylish appeal and energy-efficient heating.

# Panelling

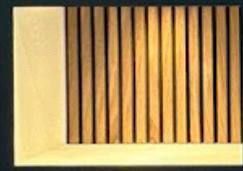

Panelling can be seamlessly incorporated into Media Wall designs or applied to other areas of the home. Its aesthetic appeal continues to grow in popularity, adding texture, character, and style to any space.

Villa Vent

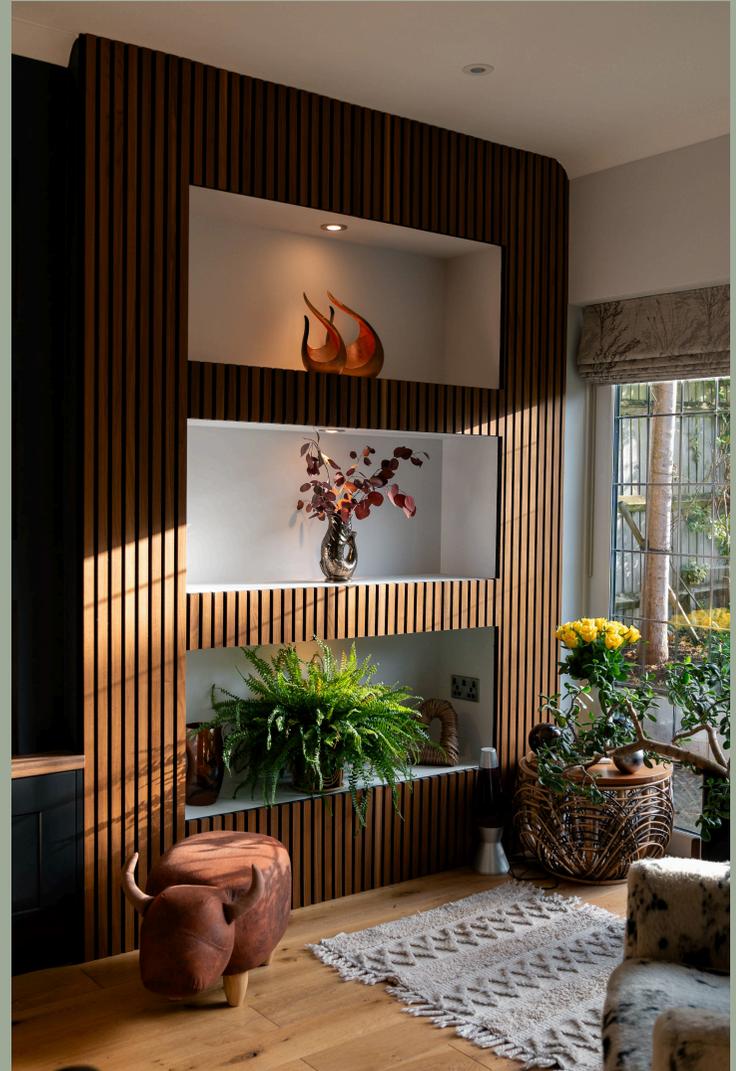

**HOME CINEMA**  
INTERIORS

Slat panelling remains a popular interior choice, and for good reason. This decorative option not only creates a striking focal point, but it also offers acoustic benefits, is easy to maintain, and versatile enough for use in any room. Made from natural materials, it's also a sustainable design choice that combines style with functionality.

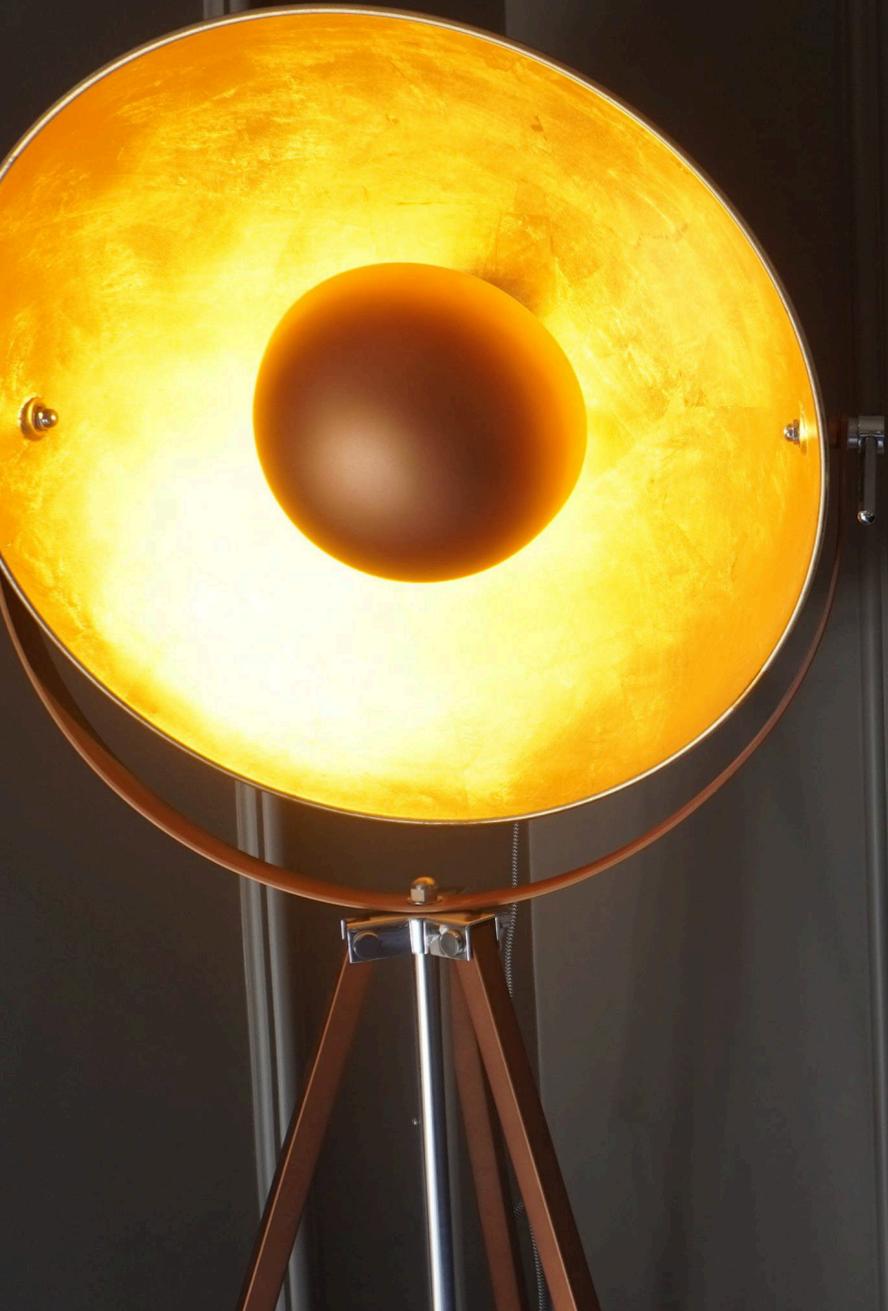

Alongside slat panelling and wall coverings, we also incorporate traditional Shaker panelling, adding classic elegance and timeless style to any room.

# Interior Design

The Home Cinema Interiors team is comprised of specialist tradespeople, enabling us to deliver complete whole-room renovations with expertise and precision.

From electrics and carpentry to painting and decorating, our team covers all the trades required to complete full room and whole-house renovations.

## Design Drawings

We understand that visualising the finished look can be challenging, which is why we offer bespoke Media Wall design drawings, created specifically around the elements you've chosen.

**CAD Design Drawing above**

This service allows clients to fully visualise their renovation before committing. Our Media Wall design service is priced at £250, which is fully deducted from your invoice if you choose to proceed with the installation.

As well as the Design Drawing, our clients receive further details and close up images of their chosen finishes to assist their considerations and decisions.

# Other Bespoke Home Renovations

A built-in laundry unit with a black front-loading washing machine and a black front-loading dryer. Below the machines are two open wooden shelves. The unit is flanked by cream-colored cabinets with a recessed panel design.

A small white countertop and cabinet unit located under the window, providing a workspace for laundry tasks.

A tall, narrow cream-colored cabinet or panel that serves as a backdrop for the sink and faucet. It has a clean, minimalist design.

A marble countertop with a white sink and a black faucet. The countertop has a light-colored marble pattern with grey veining.

Showroom

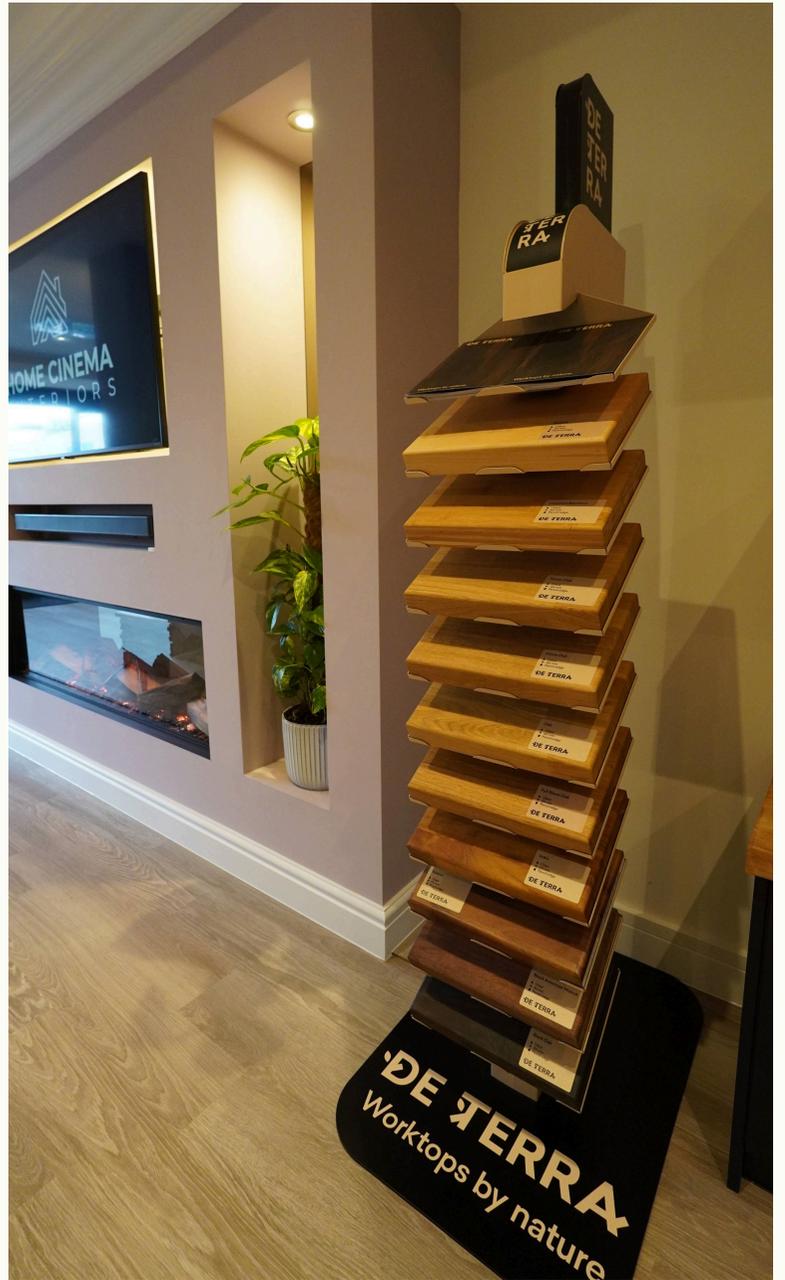

In June 2024, we proudly opened our first showroom. It was an important milestone, providing a space where potential clients can experience our work firsthand and see the quality and standard of our installations.

JUL PM

With our extensive experience in supplying and installing a wide range of audio-visual and interior design products, we have become a trusted partner for many highly sought-after brands.

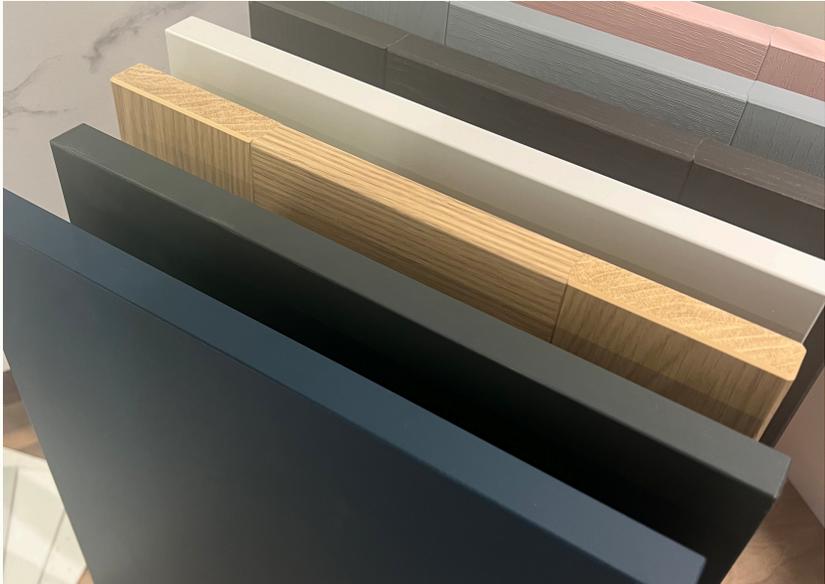

# SONOS

You don't need to have a renovation booked with us to purchase products through Home Cinema Interiors. On occasion, we may be able to offer savings off the RRP. Please get in touch to find out

# LG OLED TV

Our showroom brings together a wide range of tech and interior options in one space. You can experience the rich sound of a soundbar, view wood panelling samples, appreciate the picture quality of a screen, and touch and feel door handles—and much more—all in a single visit.

# Client Case Studies

At Home Cinema Interiors, customer satisfaction is our top priority.

We understand that a client's home is at the heart of their life, and every renovation—big or small—is important. We take pride in the positive reviews we receive and the repeat business our clients entrust to us. To provide more insight into our work, we also share in-depth client experiences through short case studies and Q&A features, giving you a clear sense of what it's like to have Home Cinema Interiors carry out a renovation in your home.

Sid and Claire have become loyal and valued clients of Home Cinema Interiors since first getting in touch in the first half of 2023. Since then we have installed a Media Wall in May 2023, a Drawing Room Renovation in October 2023 and most recently a Dining Area Renovation (with Bar!) in the last months of 2024.

The Media Wall was built and finished alongside a full room renovation and showcased a New Forest 1600 (Deluxe) Electric Fire, 65" LG OLED TV, Sonos Arc Soundbar, Sonos Amp, Storage Cupboards and Philips Hue Smart Lighting. The Interior Decor options in this Media Wall consisted of Teak Nature Wall Panelling and Walnut Slat Panelling to the shelving area of the wall and also mirrored on an opposite wall in the room. Additional finishing touches in this room included skirting, architrave, change of socket fascia's and a full room paint.

The Drawing Room began with custom made panelling, sculpted around the room to bring depth and character and installation of beautiful high-quality cornice and bespoke shelving. The original Parquet flooring was discovered underneath the existing carpet, so we put Sid & Claire in touch with a floor restoration service to bring it back to life – and they certainly did! In addition, we built specially designed oak platforms to support the stunning cast iron radiators. Beautiful, locally sourced ceiling lights were hung, premium light switch and socket fittings were installed and our painter carried out a full room redecorate in the chosen colours, which complimented the room beautifully.

The Dining Room renovation consisted of a Bespoke Bar, designed in house. The Bar showcases a beautiful Quartz Worktop (Royal Blue Quartz), also used as a backdrop within the bar. Storage cupboards and fridges were installed. The same style of panelling and cornice coving were used in the Dining Room as the Drawing Room and we also installed the same luxury Buster + Punch sockets and switches to coordinate each room. The room was given character with the Ralph Lauren wallpaper and full paint throughout.

Sid & Claire kindly answered some questions for us about their experience with Home Cinema Interiors.

**What was your initial idea around your first renovation (Media Wall)? Did you gather ideas? Research tradespeople that offered that service?**

We were looking to refurbish the family room, changing it from a simple 'TV on the wall' to a stylish and functional media wall, with added 'wow' factor. We looked for ideas on various websites, Facebook and home style magazines, and contacted a few companies to provide suggestions and quotes; however, we didn't feel inspired by what they could offer and a couple of firms didn't even bother to come back to us with a quote.

**How did you hear about Home Cinema Interiors (probably Home Cinema Design) when you first got in touch? And what was your perception at that time of the services that we offer?**

We came across Home Cinema Design (Interiors) on Facebook, after you'd posted some images of media wall designs recently completed. We were very impressed with the quality and bespoke styles, as well as their professionalism and eye for creating something truly eye catching. We visited your web site to find out more and were excited to see that your services were not just limited to media wall installations. Lots of positive customer reviews also reassured us that you were a good company to approach, especially as we'd experienced some poor tradespeople in the past.

**What was it about Josh and Home Cinema Interiors that made you happy to proceed with your initial renovation? And similarly, what were the things that he, and the team, did that made you become the repeat/loyal clients that you did?**

Initial contact with Home Cinema Designs was with Charlotte. Her prompt, polite, professional and non-pressured response to our initial enquiry made it an easy decision for us to proceed with obtaining a quote and design advice. Meeting Josh and the team, set the 'trust meter' even higher! Importantly, Josh listens... and is a full of ideas of how to take your framework thoughts and make them into something unique and special. After meeting Josh, we knew we were in good and knowledgeable hands, as he translated our requirements into a design that we loved. Josh and the team, excel at making the installation perfect, always going above and beyond. When issues arise (as they always do with home projects), we never have any concerns as Josh is always ready with a solution. Josh's trusted network of other trades (e.g., plumbers, plasters, painters) make this a truly one-stop, all-in-one firm! It is hard to find a truly trusted team that can constantly deliver to an exceptional standard. These are the reasons we've returned to Josh to renovate other parts of the house, creating breath taking and bespoke rooms that repeatedly attract compliments from friends, family and other tradespeople that visit.

### **How do you feel about your home renovations?**

We LOVE what Josh and his team have created for us! The quality of the workmanship, attention to detail, knowledge and experience, and design flare, together with the politeness and commitment of the whole team, removes any fear about engaging with Home Cinema Interiors.

### **Would you recommend Home Cinema Interiors?**

Quite simply, YES!! If, before they finish a job, you are already talking to Josh about the next project, you can firmly say that you've found the holy grail of a tradesman! We certainly won't be going anywhere else to have our renovations done. If you are looking for an honest, competent company that deliver something special, there's no reason to go anywhere else!
